EXPERIENCE

Insansa Technologies

JAN. 2022 – Till Date (2.5 years)

Work as a SAP ABAP Consultant

Client - IFFCO

Developed Customer Hierarchy Report:

- Designed and implemented a comprehensive customer hierarchy report using ALV Tree control to visually represent customer relationships and hierarchy structures.
- Enabled dynamic and intuitive exploration of customer data, facilitating better decision-making for sales and management teams.

Developed Adobe Form for FI Module:

- Created an automated Adobe form for the Financial (FI) module to streamline the process of generating payment advice to suppliers.
- Enhanced efficiency and accuracy in payment notifications, reducing manual effort and errors in the payment process.

Worked on CDS Views for Change Management:

- Developed CDS views to support normal change processes, ensuring seamless integration and accurate data reporting for change management.
- Improved the system's ability to track and manage changes, leading to more reliable.

Nirmal Polyplast & Packaging Private Limited

JUNE 2021 – DEC 2021 (6 months)

- Worked as an Electrical Maintenance Engineer. I am having an experience in Induction
- Molding Machine & Robotics System routine maintenance.

Responsibilities

Develop and Implement SAP ABAP Solutions:

- Designed, coded, tested, and debugged ABAP programs based on functional and technical specifications.
- Developed custom reports, interfaces, enhancements, and forms using ABAP programming language

Support and Maintenance:

- Provided technical support for existing ABAP developments.
- Troubleshot and resolved issues related to ABAP programs and processes.

Collaboration:

- Worked closely with functional teams to understand business requirements and translate them into technical specifications.
- Collaborated with other developers and SAP consultants to deliver high-quality solutions

Continuous Learning:

- Stayed updated with the latest SAP technologies, tools, and methodologies.
- Participated in training sessions and workshops to enhance ABAP skills and knowledge.
- These responsibilities highlight my experience and skills as an SAP ABAP Developer, showcasing my ability to develop, support, and optimize SAP solutions while collaborating with cross-functional teams to deliver high-quality results.
